**DETAILED ACTION*****Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- Embodiment 1: figures 1-6;
- Embodiment 2: figures 7-14;
- Embodiment 3: figures 15-16;
- Embodiment 4: figures 17A-22D;
  - Sub-embodiment 4(a): figures 23A-23D;
  - Sub-embodiment 4(b): figures 24A-24C;
  - Sub-embodiment 4(c): figure 25;
- Embodiment 5: figures 26-32D;
- Embodiment 6: figures 33A-34;
  - Sub-embodiment 6(a): figure 35;
  - Sub-embodiment 6(b): figure 36A-36D;
  - Sub-embodiment 6(c): figure 37A-37D;
  - Sub-embodiment 6(d): figure 38A-38D; and
- Embodiment 7: figure 39;
  - Sub-embodiment 7(a): figure 40;
  - Sub-embodiment 7(b): figure 41.

Art Unit: 2832

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Embodiment 1:	claims 1-3, 22,
Embodiment 2:	claims 17-21
Embodiment 3:	claims 4, 8-12
Embodiment 4:	claims 5-6
Embodiment 5:	claims 23-30.
Embodiment 6:	claims 7, 13-15,
Embodiment 7:	claims 31-37

The following claim(s) are generic: 1.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: they represent different distinct inventions.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 2832

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TUYEN T. NGUYEN whose telephone number is 571-272-1996. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, ELVIN ENAD can be reached on 571-272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
